

Water Renewal

THE WOODLANDS

RENEWAL IS COMING

The **Woodlands Water Agency**, in partnership with the ten **Municipal Utility Districts (MUDS)** within The Woodlands and their contracted operator, the **San Jacinto River Authority (SJRA)**, has launched Water Renewal The Woodlands to modernize and revitalize our aging water and wastewater infrastructure.

As we celebrate 50 years of The Woodlands, we're planning for the next 50 and beyond—but we need your input to guide us!

Visit waterrenewalthewoodlands.com or scan the QR code to:

- Learn more about the initiative
- Stay informed on upcoming community meetings and engagement events
- Share your input – it's essential as we plan for the future of our water and wastewater infrastructure.

Water Renewal
THE WOODLANDS

Water Renewal The Woodlands is focused on maintaining reliable water and wastewater services for the next several decades. This effort includes important infrastructure projects identified by both **Woodlands Water** and **SJRA**.

What's the purpose of the Renewal Plan?

The vitality of The Woodlands and maintenance of our business-friendly environment with a low cost of living and high quality of life hinges on the reliability of our infrastructure and our ability to maintain a high level of service to residents, visitors, and businesses.

The Renewal Plan, a collaborative effort between Woodlands Water, local MUDs, and the SJRA, aims to:

- Provide transparency and public engagement throughout the process
- Identify key projects and funding to maintain and manage water systems
- Ensure reliable, regulation-compliant services for our MUDs
